

Dawid Liftinger

Between new media and fine arts

www.dawidliftinger.com

In my art, I explore synaesthetic states through the use of self-built electronics in performances and installations. By combining light and sound, I experiment visually with flicker and color, creating soundscapes of noise, deep bass, and drastic highs to engage the audience on a sensual and emotional level. My work blurs the boundaries between cinema, performance, and installation, inviting viewers to engage intensively with the pieces and discover new levels of perception.

My artistic journey has led to exhibitions and performances at prestigious venues such as the Austrian Cultural Forum (London/United Kingdom), Ars Electronica Festival (Linz/Austria), Haus der Elektronischen Künste (HeK) (Basel/Switzerland), ZKM (Karlsruhe/Germany), 噪咖藝術有限公司 noiseKitchen (Taipei/Taiwan), 스페이스 오뉴월 Galerie O'NewWall (Seoul/Korea), RESPONSIVE (Halifax/Canada), and TADAEX (پارک آگ نسج م Tehran/Iran).
